CONNECTIONS

Connections
the respitatory system is connected with the cardiac

Circulatory system.

Connection
it connects with the circulatory system because it gives oxigen to the blood

Connections
the red blood cells give O2 to the lungs

Connection
two or more things that are doing it the same

I CAN CONNECT RESPIRATORY SYSTEM WITH BREATHING

Conections:
Lungs - circulatory system
Agus H

when you breths the oxigent enter to your lungs and the lungs funcion with blood
Anonimus

commections
our respiratory system is connected with the circulatory system.

the lungs are connected with the heart

connection with the lungs.

Lungs

CHALLENGES

Challenge
How dohat happen after we breathe

breath times stop

respiratory system

Challenges
Chale nges of what is about the respitatory system

Challenge
when we run our lungs start to get tired

When you do sports your lung work very steps

Challenge
remember the steps of the respiratory system

Bruno Z. hear the lungs are connected with the nose

if U run until 20 minutes your respiratory sys tem will work faster

IT Challenges me BY I learning How DO the Breath

SECONDS

memorize the systems

Challenges
- a quiz
- STUDENTS Vs MISSES
- alot of worksheets
- investigate about the harmpull

Challenges
A quiz of students vs teachers

Chaler
Memorise all about respiratory system.
Agus H

WHEN YOU RUN YOU get tired

Challenges
Learning everything about this system

CONCEPTS

breath a lot of times

we can breath

breath

CONCEPTS
Breath heart
air
nose
lungs
mouth

when you make sport, yours hurt is beating very fast

Concept
a System that helps us breathe

Concepts
BREATH

Concepts
Breath

Concepts
Breathing

Agus H

when you are breathing.

LUNGS
OXIGEN
NOSE
AIR

oxygen
blood
lungs
nose
mouth
co2

CONCEPTS
ASMRING

Nose

Concepts
A system that help us is breath.

Concepts
The respiratory system from organs the lungs and nostrils

FUN FACTS

Bruno C. A thing that if we dont breathe we die

can be called O2

Fun Fact
when the alp ma breath automatic

Fun fact
when you Breath it means that you are Alive!

Fun facts
air Passes out NOSE and then to a Fullmon

Do you that the circulatory system is connected to the lungs respiratory system

Fun minutes

the lungs are a muscle

lot of sport your heart Pump more fast.

heart is pumping

DONT Have

Fun fact
When you a lot and ur heart pumps that means ur heart is trying to calm.

Fun fact
Your lungs breath more than 100 times a minute

enter to your nose and then the lungs
Anonimus

fun fact
you have many cells

Fun fact
oxigen can be called O2

Fun fact
Ocean give more oxigen than trees

THE RESPIRATORY SYSTEM IS CONNECTED TO THE DIGESTIVE SYSTEM
